Ignite - 2026

Name of the Event: Code Combat - PG

Tagline: Think fast. Code Faster

About the Event:

Code Combat is a programming competition in which participants are asked to solve complex algorithmic challenges in a limited amount of time, using the Java Programming Language. Every language offers a slightly different set of tools, and a good knowledge of the available tools that reduces coding time for effective reliable code. The competition will be conducted on NetBeans or VS Code IDE.

Team Size: Maximum Two

Venue: CMPICA Lab, CHARUSAT

General Rules:

- Only team entries are eligible. A team shall consist of strictly two persons.
- The decision of the Judge will be final and will not be subjected to any change.
- The participants shall not be allowed to use mobile or other electronic instruments.
- Replacement of any participant is not allowed after registration.
- Participants must have their college ID cards.

Elimination Round:

- The first round is the elimination round.
- The qualified teams of this round will be selected for the final round.
