Ignite - 2026

Name of the Event: Code Combat - PG

Tagline: Fast-paced coding battle

About the Event:

Code Combat is the programming competition in which participants are asked to solve complex algorithmic challenges in a limited amount of time using C/C++ Programming language. Both Language offers a slightly different set of syntax & semantics and good knowledge of the available tools that reduces coding time for effective reliable code.

Team Size: Individual

Event Rules:

- Only individual entries are eligible.
- The decision of the committee will be final and will not be subjected to any change.
- The participants shall not be allowed to use internet, mobile or other electronic gadgets.
- Replacement of any participant is not allowed after registration.
- Participants must have their college ID cards.
- Depending on the number of participants, an elimination round will be conducted. This round will consist of MCQ-based questions on C programming. Participants who qualify in the elimination round will move forward to the final round of the competition.

Evaluation Criteria:

- Duration of completions
- Naming Conventions
- Program Logic and line of code
- Validations
- Format or structure of the program
- Application of concept
- Comments
- Formatted output
